

# Cymbidium cochleare

**Native of:** India, Burma, Thailand.

**Habitat:** An epiphyte in monsoon forest at around 1600m.

**Description:** A medium sized cymbidium with fine leaves and pendulous flower spikes carrying up to twenty 5cm flowers.

**Cultivation Guidance:** At school we grow this cool (min.10°C) wet in the summer dryish in winter. We grow it in a basket to allow for the pendulous flower spikes.

**Flowering season:** April and May

**Flask to flowering approx:** 4yrs.

**Seed source:** Writhlington
